

IMPORTANT NOTICE - 10KM TRAVEL RESTRICTION & RESTRICTED LGAs

Our records indicate the you may reside outside the 10km Travel Restriction or be affected by the Stay-at-Home Health Order for the following LGAs:

- ***Canterbury-Bankstown***
- ***Fairfield***
- ***Liverpool***
- ***Blacktown***
- ***Cumberland***

If so, we sympathise with your situation and sincerely hope that you and your families are coping in these difficult times. We would also like to thank those of you who have complied with these restrictions

Unfortunately, we have had several members, who have knowingly or otherwise, booked in and came to play golf despite previous notifications sent to members by the club and blanket coverage through the media.

Not only is this a blatant breach of the Health Orders but even worse, it compromises the health of other Massey Park members and their families and the Greater Sydney community in general.

In addition, it compromises the future viability of the club in regards to remaining open to play golf and our long-term financial viability if we remain closed for longer than we should.

We are working extremely hard, in difficult circumstances, to provide members with the opportunity to come to the club and safely participate in the sport that they love but we can't be compromised because of the disregard and irresponsibility of a few.

The responsibility is on ***YOU***, to ensure that you don't put us in this position.

It is disappointing to have to send a notification of this nature and we hope that we don't have to again as we may be forced to take more serious action next time.

We appreciate your frustration and hope that the lockdown ends as soon as possible so that we can welcome you back to normal play but it won't unless each and every one of us play our part.

Please Stay Safe.

ADDITIONAL NOTIFICATION:

We have had a number of members complain that they have not been receiving notifications from the club. Upon investigation of their complaint, it has been found that they have actually **OPTED OUT** of these communication services. In fact, we have had 111 golfing members **OPT OUT** from our SMS service. Under current guidelines, we cannot re-instate them without their consent.

Given the importance of some of these notifications, we encourage members not to **OPT OUT** as we consider these vital mediums for communicating with members. If any member is aware of another member that may not be receiving the notifications, please ask them to call or email the office at ***masseygc@bigpond.net.au*** to have the matter rectified.

We would also like to point out that all COVID-19 updates are also posted on the club's web site ***<https://golf.masseypark.com.au/important-updates-for-members-guests/>*** and if appropriate, also on Social Media, particularly Facebook ***<https://www.facebook.com/masseypark.golf.club>***

**Thank you for your cooperation.
On Behalf of the Board of Directors**
